\*\* Children can be very different from each other. Don't worry if your child is “early” or “late” in growth. This is important: Look for and notice your child's growth in each area. Then you can encourage each new ability.

\*\* **NEVER** let a baby play with anything smaller than a cube that is 1-1/2 in. by 1-1/2 in.

\*\* Babies do not just “eat and sleep”. They are learning all the time!
